OUTLINE & ELIGIBILITY

- **This session will introduce the "Global Railway Project Engineer" position. Target**: Engineering students interested in joining JRE and **starting their careers in Japan in October 2027**. Students graduating later are also welcome to attend and learn about **future career opportunities at JRE.**
- Other career opportunities are also available for students from all academic backgrounds who are fluent in Japanese. For details, please visit: https://recruit.jreast.co.jp/job_details/

REGISTRATION

- **Prior registration is encouraged.**
- If possible, we encourage you to attend in person, as you will have the opportunity to meet and speak informally with members of our team.

ABOUT JRE

- **JRE is one of the world's largest railway companies, serving approximately five billion passengers annually.** We have continuously enhanced our railways to make them safer, more reliable, convenient, and sustainable.
- **We are expanding our global railway business, primarily in the Indo-Pacific region**, including Southeast Asia, bringing our high standards of quality and efficiency to railway projects around the world.
- **Our diverse workforce contributes across a wide range of business areas.** The diversity of perspectives and values is one of JRE's strengths, and we are committed to creating an environment where everyone can make the most of their abilities.
